How did you hear about ICA? I was at an Oxford Club Conference when ICA made a presentation and gave away a gold coin during a "Name in a Hat" drawing. I was the winner.

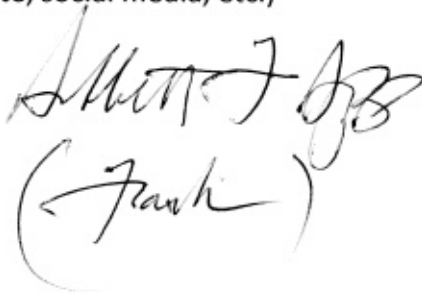

What do you like most about working with ICA? Dean has always been my contact, and has a knack for knowing what coins I am interested in. His presentations are always spot on and his pricing is fair

In addition, when he says he will do something, I can always count on him. Shipments have always been on time, and in best condition.

What do you think ICA can improve on. So far, I have had no complaints! They are always spot on!

I acknowledge that ICA can use my testimonial in any form of advertizment for the office (brochure, website, social media, etc.)
